Date: August 21, 2013

Step(s) to Complete Activity	Who Will Complete Step(s)?	When Will Step(s) Be Completed?	Outcome	How Will Outcome Be Measured?
<p>"2nd sheet" - Revise previous diabetes prevention (NDPP) material for employer as the audience.</p> <p>"1st sheet" - Review 3rd party team flyer and add CDC/ MI specific employer data; cost to treat diabetes, average sick days for healthy employee vs. employee with diabetes vs. pre-diabetes, etc. Check and site references.</p> <p>Sheets repurposed for simplification – Need volunteer to compile group suggestions for fact sheets. Christi will look at Terri's presentation for employer data points.</p>	<p>Christi</p> <p>Data points added by CD and reviewed by team. KP has five new PRPs she's waiting to see if we can include on flyer, in addition to the National Coalition of Business info for CD.</p> <p>Team Member TBD</p>	<p>11/9/12 - Completed</p> <p>8/31/2013 – work in progress</p> <p>9/30/13</p>	<p>Develop educational piece with information about programs and costs</p>	<p>Material completed and tested</p>
<p>Group decided a range would be best to capture since PRPs vary in cost. Average/ range is \$450-\$550 per individual per year.</p>	<p>Kristi, Christi</p>	<p>9/30/13</p>	<p>Develop a modifiable cost/ payment tool with line items for various approved agencies.</p>	<p>Range of cost established; utilize by PRPs.</p>

			Emphasize payment is outcomes based.
